# MANAGED IT SERVICES

---

# One Solution, Your Success!

MotivIT's comprehensive **Managed Services** portfolio provides 24/7 support of your mission-critical IT infrastructure through a single point of contact simplifying your overall administration. Our team of engineers can easily *integrate with your existing IT teams and processes* OR *completely manage everything from the ground up*. From data centers, servers and network devices to custom engineered solutions, we follow closely industry best practices to ensure everything is managed to world-class standards!

Direct benefits include immediate cost savings, optimized productivity and improved responsiveness while we align your IT operations to match the strategic direction of your business through a standardized IT environment and predictability in services delivery. Fully-supported by our **Global Service Desk** and **Network Operations Center**, we have solutions in place for all your current and future requirements:

#### **Data Center**

Complete management from deployment & commissioning to maintenance and daily operations systems monitoring

#### **Servers and Network**

Proactive and continuous support of devices round-the-clock keeping all systems healthy and ready to go

#### **Virtual CIO**

Solving your business challenges by learning the problems and establishing the right IT processes and systems with an IT roadmap

#### **Workforce Monitoring**

Control and safeguard your organization's key intellectual property (IP) by tracking your data in real-time

#### **Business Continuity & Disaster Recovery**

Prepare for and quickly recover from unplanned situations and disruptive events

#### **Managed Security**

Reduce security risks and exposure by assessing your IT systems vulnerability and taking necessary action

# Key Features

## SERVICES BREAKDOWN

### 24/7 Support

- ✓ Round-the-clock Tier 1 support incidents by the Network Operations Center including weekends and holidays

### 24/5 Afterhours Support

- ✓ Afterhours Support begins at 6 PM – 8 AM PST including weekends and holidays

### Managed IT Security

- ✓ We assess your IT environment vulnerabilities and ensure basic security countermeasures are in-place

### Knowledge Base

- ✓ Our agents continuously develop and maintain documentation specific to your needs which ensures rapid resolution for frequent and common support incidents

### Monthly Reports

- ✓ Generated Report includes the following information:
  - Company Details
  - Plan availed
  - Assigned Technical Account Manager/s
  - Managed IT Inventory
  - Open Support Tickets

### Dedicated Client Portal

- ✓ Through our custom **MotivIT ONE** platform, clients will have exclusive insight into their IT operational performance and will be able to spend more time focusing on the business instead of solving break/fix issues as they arise.

# Other Services

## VALUE ADDED SOLUTIONS

### Virtual CIO

- Formulate IT Strategy
- Plan Cost-Effective IT Budget
- Determine New Opportunities
- IT Project Management
- Plan and Manage Business Processes and Continuity
- Create Contingency Plans

### Workforce Monitoring

- ✓ Help protect your organization against:
  - Negligent retention litigation
  - Potential exposure to threats
- ✓ Risk, fraud, and Intellectual Property (IP) theft

### Business Continuity & Disaster Recovery

- Strategic planning for your Business to continue operations with minimal service downtime with a well prepared Disaster Recovery Plan

### Managed Security Services

- ✓ Oversee information security needs with round-the-clock monitoring and management of network systems and firewalls with regular audits

### Regulatory Compliance (HIPAA, SOX, GLBA)

- HIPAA (Health Insurance Portability and Accountability Act of 1996) is United States legislation that provides data privacy and security provisions for safeguarding medical information.
- Sarbanes-Oxley Act (SOX) to protect shareholders and the general public from accounting errors and fraudulent practices in enterprises, and to improve the accuracy of corporate disclosures.
- The Gramm-Leach-Bliley Act (GLB Act or GLBA) is also known as the Financial Modernization Act of 1999. It is a United States federal law that requires financial institutions to explain how they share and protect their customers' private information.
